Wedding Services:

With a variety of incredible package options, it's easy to create a menu that is unique to you and your taste. Any of our wedding packages can be completely customized. We work with you to simplify the planning by creating a package that fits your vision and budget so you can relax and enjoy the process.

Follow these three-steps to get started and let us do the rest:

First: Choose your bar package, beer selection and any enhancements you desire. Then, choose your cocktail hour package and two special selections that suit your palate.

Second: Select your dinner package and decide on your salad, entree and side options. Let us know about any dietary restrictions as well. Any special dietary requests are included at no extra cost to you.

Third: Set up your first “details meeting” with our Event Coordinator who will take you through a questionnaire and fill in your menu selections, answer any questions you have, send you a timeline to stay on track and send you a quote based on your selections. You'll have direct access to your Coordinator so you can reach out at any time.
